13 Micron Film Roll 220 x 445m Perforated

SKU 62099

To complement our range of DualPak and pulp meal trays, we also offer associated sealing films which can be used in conjunction with our tray sealing equipment. Tray sealing films provide a strong and hygienic cover for food trays, while providing an easy to open experience for the consumer. Depending on your needs, we have a variety of sizes available. We recommend piercing film prior to heating to allow for the release of steam. Note, this product replaces code 51659.
