

OLIVER 1308

Hand Operated Packaging System >

The 1308 manually operated bench top sealer creates a complete and evenly sealed package of film lidding sealed to a paperboard tray. All trays suitable for use with the 1308 sealing machine have a compatible tray carrier. Tray carriers are simple to load and remove as well as easy to clean.

1308 Sealing Machine - Key Features

- ❖ Manually operated, sealing 4-6 packages / minute
- ❖ Uses continuous film rolls rolls, unprinted or random repeat prints
- ❖ Seals and cuts film in one easy step
- ❖ Hot platen self aligns, ensuring complete and even sealing of film to tray
- ❖ Compact design
- ❖ Constructed of easy to clean stainless steel and anodised aluminium
- ❖ Simple to operate; easy to cross-train employees
