## Product Guide

# Bake Better...

From beautifully designed baking moulds in a huge variety of sizes and styles to muffin wraps that can be customised and branded, Confoil have your baking needs covered from A-Z!

But beautiful designs are just the beginning... Confoil's extensive baking range is created with all the care you would expect from a local Australian family manufacturer and are made from quality sustainable and environmentally friendly materials that are compostable and biodegradable.

## Environment

Eco Parchment Moulds are made from 100% genuine parchment, making them both compostable and biodegradable. When a material is compostable it means that the item can break down in under 12 weeks, making it suitable for commercial composting together with food waste. The item is then transformed into nutrient rich compost that helps plants to thrive. Bake in the confidence that our Eco Parchment Moulds are the ideal choice from an environmental standpoint.

## Environment

Made from high quality paper, our baking moulds are responsibly sourced and FSC certified, they are also 100% biodegradable, meaning because they are made from natural materials, they will break down again without causing harm to the environment - degrading quickly rather than taking years and leaving nothing damaging behind. Our baking moulds are the ideal environmentally responsible choice for baking beautiful cakes in.

## Environment

Made from 100% parchment, our baking sheets are certified compostable. When a material is compostable, it means that it has the ability to break down in under 12 weeks under the right conditions, making it suitable for commercial and home composting together with general food waste. The item is then transformed into nutrient rich compost that helps plants to thrive.
