

Catering Product Guide

For makers of good food...

While much of Confoil's extensive product range lends itself beautifully to your catering needs, we also have a specific range of products that are perfect for food preparation in your busy kitchen.

From quality baking paper, vegetable parchment baking sheets, catering foil and pop-up foil sheets - all available in a range of sizes and thickness variations, our carefully considered range is designed to make your job in the kitchen a little easier.

Environment

Foil is 100% recyclable and an endlessly renewable resource. Did you know that over two thirds of the foil ever produced is still in existence? Confoil recommends cleaning the foil where possible before recycling. Foil is an exceptional, sustainable choice from an environmental standpoint.

100%
certified
compostable
paper

Environment

Made from 100% vegetable parchment, our baking sheets are certified compostable. When a material is compostable, it means that it has the ability to break down in under 12 weeks under the right conditions, making it suitable for commercial and home composting together with general food waste. The item is then transformed into nutrient rich compost that helps plants to thrive.
