

A person's hands are shown operating a Confoil tray sealing machine. One hand is on the top handle, and the other is guiding a clear plastic film over a white rectangular tray filled with food. The machine is a stainless steel unit with a black handle and a power switch. In the background, there is a kitchen counter with a stainless steel bowl, a small potted plant, and a shelf with various kitchen items. In the foreground, two more sealed trays of food are visible on the counter.

Tray Sealing Equipment

Product Guide

Make, Store, Serve...

Confoil's range of tray sealing equipment and sealing films are designed with your busy kitchen in mind. Ideal for seniors meal services, hospitals and healthcare facilities, schools, correctional services and ready meals manufacturers, our range is created for makers of good food.

With both manual and automated systems available, you are sure to find a machine to suit your needs. Our tray sealing equipment is compatible with both our DualPak and Pulp Meal Tray ranges.
