Smoothwall
Foil Food Trays
— Made in Australia for Australian Flavours —

Made in Australia for Australian Flavours

Confoil's range of Smoothwall and Smoothwall Aspire foil trays are made right here in Australia.

Made of extra tough aluminium with a smooth flange to accommodate sealing films or clip-on lids, Smoothwall trays can go straight from the fridge or freezer and into the microwave or oven and are durable enough to hold their shape.

Available in a wide range of sizes, our trays are made from 100% endlessly recyclable aluminium foil, making them uniquely sustainable and a great choice for local Australian flavours.
