

Confoil PFAS Statement (Australia & New Zealand)

Confoil Pty Ltd, are committed to manufacturing safe and compliant food packaging products. As part of our quality and regulatory commitment, we confirm the following regarding per- and polyfluoroalkyl substances (PFAS):

PFAS Absence Statement

Confoil does not intentionally add per- and polyfluoroalkyl substances (PFAS), including but not limited to PFOA, PFOS or any other fluorinated chemicals, at any stage of our manufacturing processes across all our sites in Australia and New Zealand.

Our raw material selection, production methods and product formulations are regularly reviewed to ensure compliance with applicable regulations and best practices regarding food safety and environmental governance. Based on supplier declarations, technical documentation and our own process controls, the presence of PFAS is not expected in our finished products and is not part of our manufacturing program.

- Aluminium foil trays
- Dualpak paperboard trays
- Smoothwall trays
- PET and PP plastic trays and Lids
- Lidding films
- Custom and specialty packaging
- Other food-contact packaging produced at our sites in Australia and New Zealand

Confoil continues to monitor evolving regulatory requirements in Australia, New Zealand and Globally. Ensuring our packaging products continue to meet food contact safety and environmental standards. Should you require further information, please contact our Quality Assurance team.
